Otis, Thank You,

you are exactly the person I want to become wealthy, now that I achieved my goal you have to help others achieve theirs. The only way to cure all the ills in this world is for each one of us to help another.

Make a video about your story or write a Blog post and share the lessons learned and how others can benefit from this as well.

Kim will follow up with Caitling for the MOIP show.

Thank You,

Alex Mashinsky

Alex,

I would love to see a MOIP show with Caitlin Long. I want to know more about Wyoming and the laws she helped pass and her Avanti Bank. From what I read, Wyoming's crypto and blockchain law acts in the best interest of crypto asset holder. It might not be a bad idea to have a two- or three-person office in Wyoming, or give it some thought.

I don't get to say this often — as a matter of fact, this is the first time I'm saying it: Thanks for making me a millionaire. Words can't even begin to express how grateful I am for what you've done and the hard work that you put in day after day. Gosh, you really don't have an off switch. I turned millionaire on Friday, May 29, 2020 at 10:48 PM. Yes, I noted it in my calendar and made me a drink that Friday night to celebrate.

Of course, my four UPS stores are worth over a million, but I don't count that because that involves debt. But Celsius made me a millionaire to the tune of almost \$2 million. And that's pretty cool.

If only more people would listen to your teachings and what you're saying and follow your advice to financial independence. I'm shocked more people are not gobbling up Cel token, as I still think it's underpriced.

I'm sitting here wondering how many millionaires you're going to make when you start to scale and if you, through Celsius, will make more millionaires than Ethereum did.

Best, Otis.
